2019 JOINT AID MANAGEMENT

Joint Aid Management is empowering Africans to create better lives for themselves.

ANN PRETORIUS

GLOBAL CEO

2019 - SAVING LIVES AND EMPOWERING COMMUNITIES

Our teams are the hands and feet touching the lives of more than 1.2 million beneficiaries daily in communities across Africa. JAM currently employs 455 staff members and thousands of volunteers from around the world and within the countries where we serve.

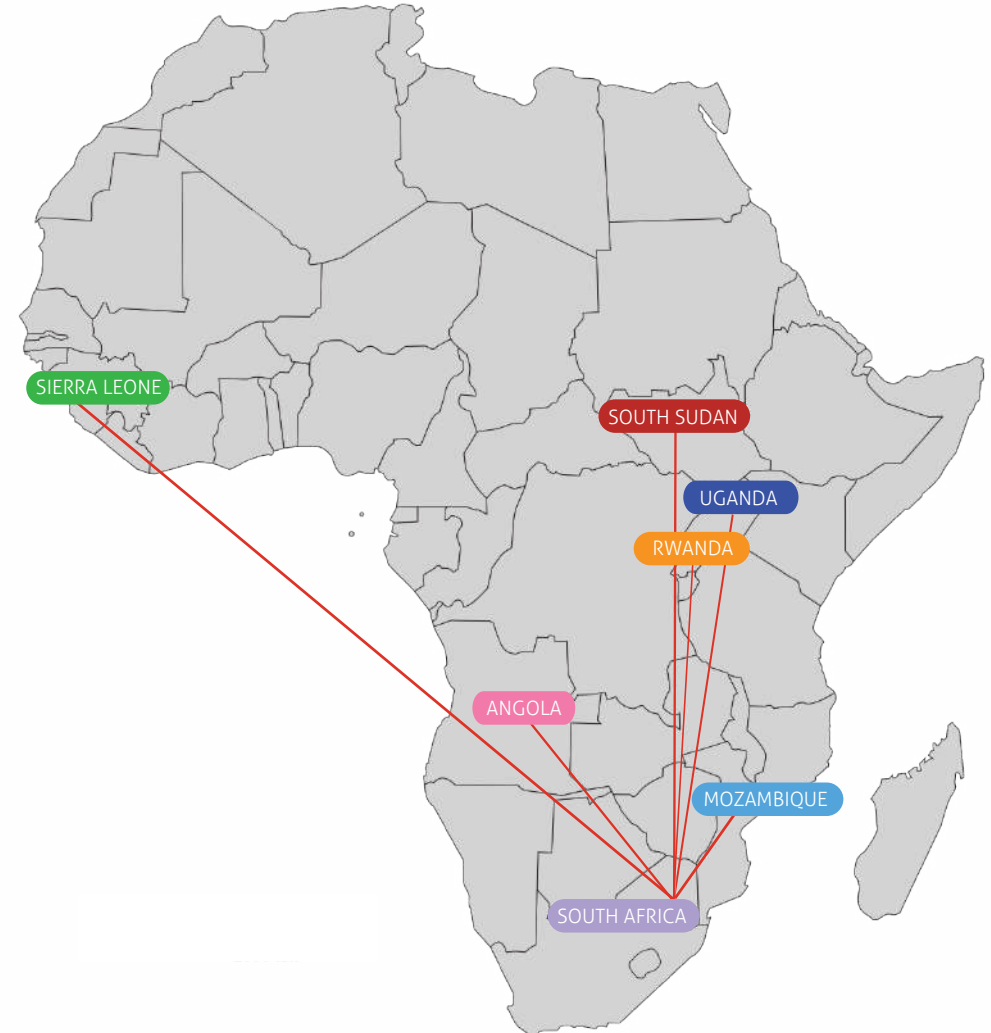

These volunteers donate their time, expertise and resources towards improving the lives of the precious people we serve.

We are strengthened by the hard work of those serving in our affiliate offices in seven countries, namely USA, Canada, UK, Germany, Switzerland, Norway and South Africa. They help us to source and mobilize the much-needed resources that maintain and build the flow of funding for expansion of our African field offices. They also facilitate strategic partnerships with other likeminded organizations committed to serving humanity through their various capabilities and strengths.

Our offering is to be the best, most efficient and effective implementing partner.

LOOKING AHEAD - FUELED BY PASSION, DRIVEN BY DEDICATION.

JAM's commitment to creating a better life for children and communities across Africa remains at the core of our work. As we look into 2020 and beyond, we remain committed to the JAM purpose while pursuing operational excellence.
